

"Never for me the lowered banner, never the lost endeavor."

-Ernest Shackleton

Like the great 20th-century explorers, mankind has always been driven by its curiosity of unknown lands. PONANT, the world leader in luxury polar expeditions, invites all intrepid adventurers on an unforgettable journey of discovery to the icy realms that lie beyond the known world. Join us in Summer 2020 to see the Arctic—including Spitzbergen, Greenland, Baffin Bay, or Roald Amundsen's Northwest Passage—or in Winter 2020/2021 for Antarctica, Shackleton's icy final frontier.

These remote, frozen worlds evoke a childlike curiosity for exploration, as your senses heighten to the unfamiliar. Listen for the distant growl of a polar bear or the chatter of a bustling penguin rookery. Stand humbled at the foot of an immense glacier. Smell the crisp, barren tundra stretching out in white as far as the eye can see. Nature rules in the extreme latitudes, and to step foot upon these lands, so untouched by human presence, is to feel alien on your own planet.

Visiting Antarctica and the Arctic is truly a once-in-a-lifetime experience, and we know you want it done right. PONANT has been cruising in the poles for over 20 years, and we employ the latest technology and the most knowledgeable captains, expedition leaders, and crew to take you there safely. Daily Zodiac® outings and shore landings, led by our expert team of naturalists, provide informed and up-close encounters with wildlife and landscapes. Our small-capacity vessels create a cocoon of luxury (think fine French champagne, contemporary boutique accommodations, haute cuisine) in the world's most inhospitable places. Sustainability is always at the forefront of our operations, with our eco-friendly, Clean-Certified ships and commitment to environmental preservation.

Make this the year you venture into the unknown to discover the secrets that hide at the ends of the world. We look forward to welcoming you aboard very soon!

southern tip of Greenland, or experience the "stark solitudes that sentinel the Pole" in Shackleton's Antarctica, PONANT will take you as close as possible to the most beautiful natural places on our planet in style.

Awaken your sense of wonder

Far from civilization

Ultima Thule, the mythical northern kingdom. The White Continent, perched in exquisite isolation at the bottom of the world. In the Arctic or Antarctic, the only man-made object in sight will be your ship, drifting delicately amongst the icy vastness. This is likely the farthest you will ever be from home, and we are privileged to be your guide.

The size of our ships and their shallow draught mean you can come as close as possible to hard-to-access areas for an up-close discovery of preserved sites. Our expedition teams are always on the lookout for the surprises that are inherent to the region. Our flexibility enables us to adapt to the unexpected.

Zodiac® shore visits and outings

During Expedition voyages, our fleet of Zodiac® inflatable crafts make landing ashore in remote destinations safe and enjoyable, and enable guests to get as close as possible to ice, shorelines and fauna. Our Zodiac® are designed to accommodate small groups of 10 passengers. They are easy to step on to from the marina platform at the rear of your ship. Our inclusive Zodiac® and shore excursions are unforgettable experiences.

Luxury amenities

Visiting some of the most remote places on Earth does not mean you have to rough it. An expedition with PONANT assures the best conditions of day-to-day comfort for you—anywhere on the planet. Aboard, you will enjoy a luxurious ship and cabin, personalized and attentive service, refined cuisine and more. We go to great lengths to create the feeling of being aboard one's own private yacht.

An experienced Expedition Team

Your Polar Expedition Team has been selected for their knowledge and expertise, to enhance your experience both on board and in the field. They provide fascinating lectures and valuable insight into the culture, history and wildlife of the region. Accompanying you throughout your voyage, they are ideal companions for a journey of discovery and a rewarding experience.

PONANT, Polar Specialist

As the world's foremost polar cruise specialist, PONANT can make your dreams of adventure a reality. Each day on expedition holds unexpected surprises, a hint of the unknown, an unusual Zodiac® outing. Embark on the journey of a lifetime.

Transform your world

A tradition of excellence, professionalism and expertise

With over 20 years of experience cruising in extreme regions, PONANT is a true polar expert. We operate more than 70 expedition cruises each year in 40 countries. More than a quarter of our annual programs are in Antarctica or the Arctic.

We also have the technology and know-how to take you to the most remote regions in complete safety, and our Captains and crew members are specially-trained polar professionals.

Our fleet is the youngest in the world, with the most modern technology and equipment to assure your safety as well as respect for the regions visited.

Finally, our stable and silent ice-certified ships meet the most stringent international standards. We employ 3D seabed visualization using a dual sonar system, satellite weather station, GPS trackers on the Zodiac® inflatables, and more.

All-inclusive Expeditions

Once aboard, enjoy the adventure in total peace of mind. Everything is included on a PONANT expedition: Zodiac® outings and shore visits, excursions, lectures, parkas and boot rental for polar cruises.

Respect for the environment

Every day, we are committed to being a leader in environmental protection. As we sail into sensitive areas, it is essential to respect the marine environment and the places we visit ashore. Because at PONANT, we believe that we preserve better what we know well.

Commitment to the preservation

Our ships have been awarded the "Clean Ship" label, ensuring environmental regulatory compliance in our operations (recycling, reuse practices, waste and sewage treatment on board, reduced exhaust emissions, sustainable purchasing practices, low-energy light bulbs, etc.).

In 2016, PONANT was awarded the **Blue Charter Trophy from the French Shipowners' Association** recognizing our exemplary nature in terms of economic and social development and care for the environment.

IAATO and AECO

PONANT is a full and proud member of the International Association of Antarctica Tour Operators (IAATO). **IAATO** is an industry group organization that sets the highest possible tourism operating standards in an effort to ensure appropriate, safe and environmentally sound travel to Antarctica. Its rules include guidelines about maximum numbers of passengers during shore landings, and other specific guidelines regarding wildlife watching, visitor briefings, and key safety obligations for operators.

In the Arctic, PONANT is a member of **AECO**, the Association of Arctic Expedition Cruise Operators. AECO is dedicated to managing responsible, environmentally friendly and safe tourism in the Arctic.

Our zero-impact disembarkation protocol

As the global leader of expeditions to extreme lands, PONANT applies a strict protocol to all of its disembarkations at new sites. A dedicated team is assigned to this innovative move, which has an ambitious goal: to have zero impact on the visited ecosystem when disembarking, thus preserving the fauna, flora and populations.

Le Cercle Polaire

For many years, PONANT has actively supported Le Cercle Polaire®, a think tank focused on preserving polar environments. To raise awareness among passengers, members of Le Cercle Polaire® are regular guests of honor on our polar cruises, during which they discuss their projects with passengers.

www.lecerclepolaire.com

Support for local communities

The cultures of local communities are an invaluable wealth that deserves our support. PONANT initiated a partnership with the Upernavik FabLab (fabrication lab) whose goal is to train local craftsmen of the Inuit community. This training gives them the means to reproduce traditional pieces, which can then be sold in museums and aboard our ships, thereby encouraging the community to maintain their cultural crafts.

Savor your experience

The French art de la table

Our Chefs and their galley team interpret and share their passion for French culinary heritage with our passengers.

Fresh products and carefully selected ingredients, mature cheeses and a superb list of grand cru wines... all this combines to make each meal a feast for the senses.

Gastronomic restaurant and Grill restaurant

Our ships offer two different dining concepts.

In the Gastronomic restaurant, à la carte meals are served at your table. For lunch, choose from a selection of dishes inspired by a contemporary French brasserie menu. For dinner, you will be served refined cuisine in the finest French gastronomic tradition.

In the Grill restaurant, the atmosphere is more relaxed with a buffet option. From breakfast to dinner, indulge your taste buds with the healthy, delicious and refined food prepared by the team in the galley.

The advice and expertise of Ducasse Conseil

In 2016, PONANT joined forces with Ducasse Conseil, a catering center of excellence run by Alain Ducasse Entreprise. From the conception of the culinary offering to the training of the company's Chefs, this long-term project aims to ensure that PONANT's culinary standards are the highest possible and to satisfy the exacting requirements of our guests.

Open bar

From the moment you board and throughout your cruise, your beverages are included, at any time of the day. A drink with friends at the bar, refreshments on your return from an excursion or in the calm of your cabin's balcony: enjoy a large selection of mineral waters, cold drinks, cruise wines, beer, champagne, spirits, coffee, and tea. A selection of premium alcoholic drinks is also available à la carte.

The PONANT fleet

Fluid lines, a streamlined bow: the exterior design of our ships reflects the spirit of a subtly-revisited nautical theme.

On board, our guests enjoy an atmosphere of relaxed elegance and experience a concept of travel that is exclusive, intimate and luxurious.

L' Austral, Le Boréal, Le Soléal & Le Lyrial

Exceptional design

Our sisterships were crafted on an intimate scale, perfectly adapted to extreme destinations, designed so all passengers can make the most of the breathtaking ocean and shore views.

On board, a selection of fine materials in discreet and soothing shades of taupe, grey, white, and natural wood gives the interior a unique style that is both contemporary and inviting.

Small is beautiful

At a time when giant cruise ships abound, PONANT has chosen to remain true to its philosophy by developing an ultra-modern but always moderately sized fleet. Thus Le Boréal, L'Austral and Le Soléal boast only 132 Staterooms and Suites, and Le Lyrial just 122. The result is a perfect blend of luxury and cutting-edge technology.

Commitment to the environment

Because we are convinced that a responsible approach is required in our quest for excellence, PONANT chose to equip its sisterships with ecologically sensitive equipment. As a result, they have all been awarded the international "Clean Ship" label.

At the vanguard of luxury cruising

The innovative PONANT EXPLORERS are expressly designed for expeditions. The are easy to maneuver, allowing access to even more extraordinary destinations. Our signature comfort and service are on offer, even in the most extreme regions. These state-of-the-art vessels are fitted with a movable marina platform, allowing guests to swim and engage in other water sports directly from the ship. A submersible miniport provides accessibility to a number of nautical activities (like kayaking, paddle boarding, and more).

A luxurious, intimate and refined atmosphere

At 430 feet long with just 88 cabins, each with a private balcony, and four suites, each with a plate-glass window and private terrace, the smaller capacity of the EXPLORERS creates an intimate atmosphere, while the 110 crew members provide professional and attentive service. The warm and contemporary interior design is directly inspired by the colors seen in PONANT's destinations, accented with ethnic touches.

A tribute to great explorers

Le Champlain, Le Bellot, Le Jacques-Cartier...our new fleet pays tribute to great French explorers who set off on adventures beyond the boundaries of the known world in search of new lands.

Blue Eye The world's first underwater lounge In a world exclusive, each of the ships of the PONANT EXPLORERS series are equipped with an underwater guest lounge, called the Blue Eye, located within the hull beneath the water line. 26 | VISIT PONANT.COM

The design of this technical prowess was entrusted to architect Jacques Rougerie, who is deeply passionate about the sea. This major innovation focuses on three concepts:

Biomimetic

Jacques Rougerie drew inspiration from nature in order to determine the key elements of the underwater lounge. All focus is drawn towards the two portholes, shaped like the eye of a cetacean and looking out upon the subaquatic world. The mural décor disappears to make way for the integrated digital screens projecting the images filmed live by three underwater cameras. Placed at the ship's strategic points, these cameras enable guests to witness, for example, the spectacle of dolphins playing in the bow waves.

Innovative underwater vision

The non-intrusive underwater projectors developed expressly for the PONANT EXPLORERS enable the observation of the seabed from the Blue Eye lounge as well as from the outside decks, balconies, and the marina—without any risk to the environment.

Global listening

The sound design of the underwater lounge offers guests an experience in acoustic immersion that is unique in the word. Thanks to hydrophones integrated beneath the keel, the natural symphony of the deep sea is captured across a three-mile radius. Sound is transmitted live into the lounge in the form of acoustic waves that can be felt in the Body Listening sofas, which discreetly vibrate in unison. This sound experience is also offered through subaquatic concerts broadcast at sea or in the swimming pool.

In 1973, Jacques Rougerie designed the first "Village under the Sea" project in the Virgin Islands, made for living and working beneath the ocean. For over 40 years, he has continued his path among those building the future, passionate about the prospect of linking man to his natural setting.

The Untarctic

Fall under the spell of the White Continent.

A world of ice and water awaits you; an untouched environment that only a lucky few have had the thrill of discovering. Huge tabletop icebergs, majestic glaciers, beaches of volcanic sand, windswept moors scattered with moss and lichen: the diversity of landscapes forms a natural haven for fascinating wildlife.

Not to be missed in Untarctica

South Georgia

Discover South Georgia, a region formed by an underwater mountain chain that extends from the Andes to the Antarctic Peninsula. All the wildlife of the Far South can be found here: King and Gentoo penguins, elephant seals and fur seals mingling on the beautiful dark sand beaches, orcas, humpback whales and other cetaceans escorting us through frozen waters. Discover the majestic glaciers of Gold Harbor and the vast plains of Fortuna Bay. If you are fortunate enough to land at Salisbury Plain, you can expect a wonderful sight: more than 300,000 King penguins, recognized by the bright orange mark on their head and neck, have taken up residence here. Whatever your itinerary, South Georgia will offer beautiful panoramas and surprising encounters.

Antarctic Peninsula

Succumb to the magic of a place unlike any other. To access the "White Continent", you will sail through the infamous Drake Passage and set off to discover the infinite riches of these distant and uninhabited lands. With its muffled atmosphere shrouded in mist, it feels like the end of the world. Glaciers, ice floes, table top icebergs, mountain peaks plunging straight into the sea, volcanic beaches and charming bays: there are so many spectacular landscapes here, which, with their multiple reflections, are an invitation to contemplation. Encounter exceptional fauna in a place where space and time take on new meaning.

Falkland Islands

The Falkland Islands, renowned for their wildness, were discovered by a Spanish expedition at the beginning of the 16th century. More than 200 years later, sailors from Saint Malo occupied the island and gave it the name of Îles Malouines, used until the British conquest in 1833. Surrounded by a grey and often wild sea, the islands are a small country of moors and rugged coastlines carved by the South Atlantic. The flora and fauna that live in these cool and humid places create a link between Patagonia and the Antarctic. Take the time to observe the different animal species, like sea lions basking on the waterfront or magnificent black-browed albatross as they come to sit on their nests. You may even come across Southern Rockhopper penguins living up to their name.

Neko Harbor

A little corner of paradise in the shadow of a towering glacier, Neko Harbor is without a doubt one of the most beautiful sites on the Antarctic Peninsula. Mountains, ice and wildlife combine to form a truly unique landscape. Animals are as abundant as they are exotic: you'll encounter seabirds (gulls, Cape petrels, cormorants) and marine mammals (seals, orcas and other whale species). Head out on a Zodiac® excursion to get up close to the icebergs; stop over near a penguin colony; watch a leopard seal sunbathe between dives; and admire Antarctic terns in flight.

Half Moon Island

Nestled among the South Shetland Islands in the icy waters of the Antarctic, Half Moon offers a surreal and mystical setting. Here, the rugged coastlines alternate with gently sloping bays, overlooked by petrified volcanic pipes. Camara, a former Argentina research station established in 1953, still stands in the crook of a vast, crescent-shaped beach of large ash-colored pebbles battered by icy electric-blue waves. Half Moon's wild lunar landscape is home to a number of animal species, including Chinstrap penguins, fur seals, Weddell seals and Antarctic terns.

Port Charcot

This cove, a natural harbor located in Salpêtrière Bay, was discovered by French explorer Jean-Baptiste Charcot. Named for the explorer's father, famed neurologist Jean-Martin Charcot, this tip of Booth Island still holds vestiges of Charcot's 1903-1905 anchoring. A brisk walk through the snow will take you to the remains of Charcot's stone cabin where he conducted studies on magnetism. Nearby, you'll notice a colony of Gentoo penguins. If you continue on to the summit, you'll pass by the remnants of a cairn and enjoy an unobstructed view of the vast field of icebergs scattered over the bay like white tombstones.

Deception Island

Situated just above the northern tip of the Antarctic Peninsula, Deception Island is easily recognizable thanks to its distinctive horseshoe shape. The crater of this former volcano caved in 10,000 years ago and the resulting caldera was flooded, creating a natural harbor. Deception Island still bears traces of its past as a longtime hub of the whaling industry. The vestiges of abandoned sheds that line the black sand of its volcanic beaches share space with the island's spectacular fauna. The island is home to the Antarctic Peninsula's largest colony of Chinstrap penguins, as well as numerous elephant seals and fur seals.

Salisbury Plain

Salisbury Plain is home to one of the most unforgettable natural vistas of South Georgia. Formed by the retreat of Grace Glacier, the same majestic peaks that once awed Shackleton still tower over the surrounding land. The island's bluish landscape exudes the beauty of unspoiled nature. At the heart of this wild refuge lies a colony of 300,000 King penguins. Amidst this sea of black and orange heads, fur seals can be spotted nosing their way through the crowd. Under the austral sunlight flocks of birds are carried by the winds in a graceful show of nature's wonder.

Cooper Bay

Take a seat in one of our Zodiac® dinghies and head out to explore Cooper Bay, named after the first lieutenant of Captain James Cook. The bay offers a quite unexpected sight, with long basalt canyons forming high cliffs that loom over a turquoise-blue water. In the center of the bay, a magical atmosphere reigns when just a few rays of sunshine pierce the gauzy layer formed by the morning mist. The craggy coastlines are home to colonies of Macaroni penguins who pay close attention to the arrival of our crafts.

Gold Harbor

Glaciers with a bluish sheen, waterfalls that reflect the rays of the setting sun, pitch-black volcanic sand beaches: these are just a few of the wonders that create Gold Harbor's landscape. This natural gem is blanketed by green tussocks and framed by snow-capped peaks. On this island where summer days are endless, the wildlife stays up with the sun. Fur seals, elephant seals, and King penguins move about the island like tiny black dots along the landscape. Those humans who enter this kaleidoscope of colors do so as privileged and tolerated observers of the austral wildlife.

New Island

Considered by some to be one of the most beautiful places in the Falklands, New Island is located on the western edge of the archipelago and home to a tiny village of two families. The goldensand, flower-lined beaches look like paradise and contrast with the sheer cliffs plunging into the ocean. One can observe albatross swooping down from the cliffs and skimming the waves that crash against the rocks. A narrow pathway weaves around typical Falkland moorland and leads to the heart of a colony of Southern Rockhopper penguins, black-browed albatross and imperial shags.

Follow in the footsteps of great explorers

Although the existence of an Antarctic Continent was mentioned in Antiquity by Aristotle, it wasn't until 1773 that James Cook crossed the Antarctic Polar Circle for the first time. Other explorers would follow in his footsteps and undertake expeditions to the South Pole: Jean-Baptiste Charcot, Adrien De Gerlache, Sir Ernest Shackleton and, later, Paul-Emile Victor would open the way to the most extreme of all continents. Aboard your ship, we invite you to retrace the journeys of these pioneers, who set out to conquer the final frontiers of the Great South, and travel to the ends of the Earth where there is still room to dream. Some journeys cannot be described; you simply have to experience them.

Not to be missed in the Arctic

Meeting the Inuit

For more than 4,000 years, the Inuit people have maintained an ancestral way of life in the midst of the icy vastness of Nunavut territory. For centuries, their lives have been organized around the level of the tide and the state of the ice. Keepers of beliefs that have long since been lost elsewhere, this aboriginal people has chosen to live in accordance with their traditions. The Inuit are skilled craftsmen producing veritable works of art by sculpting walrus tusks or caribou antlers and deftly sewing the skins and furs of marine mammals.

Your Zodiac® outings

So you can get as close as possible to the secluded lands of the Far North, we regularly organize Zodiac® excursions and impromptu shore visits in small groups. In the company of our naturalist guides, take your place aboard a Zodiac® inflatable to capture a magical moment in the heart of fascinating landscapes, where the ice floes mix with fjords. Set out to discover secretive polar wildlife. Each sea trip may be different, so take your binoculars and cameras and don't miss a moment of upclose connection with nature!

Exceptional Wildlife

At the tip of the world, where the sun wavers between night and day, lies a magical land made of ice, water, and polar deserts with rugged but grand landscapes: the Arctic Continent. As you cruise along its frigid waters or explore its snow-covered lands, look out for a chance spotting of the graceful narwhal, nicknamed "unicorn of the sea" and renowned for its agility; the woolly muskox; the bearded seal, recognizable by its small head covered in an abundance of vibrissae; or the polar bear, the undisputed lord of the ice.

Greenland

A land forgotten by time where the primeval beauty of the environment conjures feelings of a rare intensity...discover Greenland, the island at the end of the world. As your ship slowly inches its way towards the coast, the territory reveals its full magnificence of light, water, ice, icebergs, and bright colors bathed in dazzling light. The Greenlandic fauna is incredibly rich: eight species of whale, two million seals, walruses, polar bears and an incredible variety of seabirds populate this region.

Baffin Bay

Where the sea ice becomes fragmented only during the brief summer, your ship will head north, between deserts of ice and wind-swept snow. Virgin lands and immense polar oceans—you are on Baffin Island. Take the time to look around and you will discover the secrets of a protected fauna, including polar bears, humpback whales, walruses and migratory birds. We offer several outings by Zodiac® in order to get as close as possible to the exceptional wildlife. As you sail Baffin Bay, let yourself be captivated by the landscape of steep cliffs, gigantic fjords, icebergs and glaciers.

Spitsbergen

Your ship will have sailed to latitude 78° north when it reaches the chiseled coasts of Spitsbergen, the last island before the North Pole. Look for bearded seals basking on a piece of the ice floe, Arctic terns grazing at the sky, belugas appearing at the surface of the water—the spectacle seems unreal at times. Expeditions ashore will take you in the path of the old explorers; sailing days will be punctuated with unusual outings, such as trips in Zodiac® dinghies at the first light of dawn to try and catch a glimpse of an elusive polar bear.

The Northern Lights

In a muffled silence, your ship will take you to discover Greenland's infinite skies and the clear, cloudless nights which sometimes feature strange light phenomena: the aurora borealis, or northern lights. Here, night is transformed into a shimmering veil of colors, a nocturnal rainbow that undulates with elegance and mystery. According to Viking legend, this light show is caused by the armor of the Valkyries emitting a twinkling light as they fly towards Odin's palace. The aurora borealis occurs when particles from the Sun collide with particles in Earth's atmosphere. Adventure-seekers may get the chance to glimpse this unpredictable light show that nature has bestowed on the Far North.

The Northwest Passage

For more than three centuries, different generations of sailors attempted to find a maritime route to link the Atlantic to the Pacific via the Canadian North. The search for this mythical passage led to both tragedies and feats. In the end, it was the Norwegian explorer Roald Amundsen who found it first in 1906, after a long and perilous three-year voyage in extreme weather conditions. The elusive Northwest Passage really did exist! PONANT invites you to sail along this legendary maritime route in the wake of the great explorers for a truly different travel experience.

Iceland

As a land of extremes perched on the edge of the Arctic Circle, Iceland boasts a range of wild and ruggedly beautiful landscapes where wind, stone, fire and ice mingle. Here, the volcanoes, geysers, fjords and wild expanses create a unique atmosphere where a touch of intangible magic reigns. This mythical realm unfurls an impressive color palette, ranging from the jet black of obsidian to the soft green of the meadows which spread alongside its cliffs.

The Icebergs

Cruise through the heart of landscapes heavily punctuated with vertical lines and dotted with vertiginous cliffs and cathedral-like icebergs, admiring this spectacle from the decks of your ship. These majestic mountains of ice will tower over you and the sun will shine upon them like a great floodlight, a palette of colors reflecting their extraordinary beauty: deep blue, white, turquoise, or as transparent as pure crystal. Nature's creative genius will reveal itself before your very eyes in the form of an incredible confusion of ice sculptures. Icebergs are natural works of art, and they result from an accumulation of snow that is compressed over thousands of years.

Not to be missed in North America

The Aleutian Islands

Located southwest of Alaska, the Aleutian Islands form an elongated chain marking a line between the Pacific Ocean and the Bering Sea. Acting as a natural bridge between Alaska and Kamchatka, they make up the emerged part of the Pacific Ring of Fire. Each island is a volcano crowned with ice, and you will be able to admire the infinite landscapes composed of tundra, covered in wildflowers and lichen. The wildlife here is exceptionally varied: whales and orcas are frequently observed, and if you look to the sky you may see some of the 200 species of birds that have chosen to make these islands their home.

Saint Pierre & Miguelon

At the entrance to the Gulf of Saint Lawrence, not far from the Grand Banks of Newfoundland, lies the Saint Pierre and Miguelon Archipelago. Discovered by Jacques Cartier in 1536, then inhabited by fishermen from Normandy, Brittany, the Basque Country and Acadia, the archipelago still bears many traces of the past. Whale hunting, cod fishing, alcohol smuggling during Prohibition: all of these memories are still very much alive in the capital, Saint-Pierre. From moors to lagoons and rocks to forests, the unspoiled natural environment is home to a rich biodiversity. Whales, finbacks, dolphins, seals, puffins and petrels can all be observed here.

Alaska and the Gold Rush

There are places in Alaska where past and present become one, where traces of the pioneers and fur traders who traveled across the country in search of fortune and adventure can still be found. The Klondike Gold Rush, in particular, still resonates in Haines and Skagway. The discovery of gold in the Yukon led to a gold rush between 1897 and 1899. Don't miss your chance to discover the places that are emblematic of that period, in a setting of glaciers and forests.

The Bald Eagle

The symbol of the United States is often confused with the golden eagle. Its diet, composed mainly of fish, is what sets the two apart. With its 6.5-foot wingspan, the bald eagle is the largest bird in Alaska and therefore has a very important place in the ancestral rites of Indian tribes.

Sitka

Formerly a Russian colony located on Baranof Island, to the west of the Alexander Archipelago, Sitka is brimming with history. The national park shelters totems carved out of red cedar, a tree that is omnipresent in the region. These totems are testimonials of the former presence of Tlingit Indians. Sitka is full of natural wonders, too. You just have to look up to admire the mountain range surrounding the port and the snow-peaked Edgecumbe Volcano standing majestic in the distance; scattered around Sitka, numerous islands stretch out before you.

The Sea Otter

The sea otter, with its long, streamlined body and thick brown fur, is the smallest marine mammal in the world. If this charming little rodent prefers to live near the shore in shallower waters with rocky beds, this is more because of its dietary preferences than any fear of the open sea. The sea otter feeds on crabs, sea urchins and fish. Sea otters can be found floating gently on their backs or wrapped around giant seaweeds, which help hold them in place while they feed or sleep.

Highlights*:

- Shore visits in Zodiac® inflatables with a team of experienced naturalist guides.
- Hiking opportunities.
- · Visit traditional villages and meet the indigenous peoples of the Far North: the Aleuts, Tlingits, Kwakwaka'wakws, Yupiks, and Haïdas.

IMPORTANT INFORMATION

Visas: Before departure, please check carefully that your visas are valid for the right date and time spent in the countries in order to avoid unpleasant situations.

Warning about the use of drones: The use of drones aboard PONANT ships, whether they are sailing at sea, at a port of call or anchored, is strictly forbidden. The use of drones on land in the Arctic and Antarctic regions is also strictly forbidden by international polar regulations. In other regions, it may be possible to use drones on land if permission has been obtained from the relevant authorities of each country and each region travelled through, as well as a pilot's licence that should be obtained from your home country. Passengers are responsible for obtaining these permits; they should be able to present them at all times. Passengers who do not obtain these authorizations expose themselves to the risk of legal proceeding.

Medication: If you have a medical treatment, do not forget your prescription.

Polar expedition cruise:

- Complimentary polar parka: For all cruises marked with the "parka gift" logo, a PONANT polar water-resistant parka is offered (adult sizes only; in case of consecutive cruises, only one parka per person).

- Complimentary boot rental: Boot rental will be offered onboard (for adults only) on Expedition cruises where the "Free Boot Rental" logo appears. Book your boots up to 7 days prior to departure on our dedicated website https://boutique. ponant.com/, boots section. You will find them on board after embarkation. For more information, please contact us.
- Ports of call, visited sites, outings and landings will depend on weather conditions, position of ice, winds and the state of the sea. These can force a change of plans at any time. The Captain and the Expedition Leader may at any time cancel or stop any activity, or even modify the itinerary. The final itinerary will be confirmed by the Captain, who will take into account the touristic quality of the sites and above all, the safety of the passengers. His decision will be based on advice from experts and authorities.
- Travelling to polar/isolated regions is an exhilarating experience in remote areas: please remember that you are far from modern hospitals with full medical facilities, thus evacuation is extremely expensive. Without adequate medical coverage, all expenses will have to be immediately paid with your personal funds. We urge you to subscribe to full coverage insurance, choose your insurance company very carefully, be extremely vigilant and ensure your insurance is fully comprehensive, especially if you are insured by your credit card. PONANT offers an insurance contract with extensive guarantees, please contact us for more information
